

Rudolf Steiner
School
Mbagathi Nairobi

*“Even the flight of the sparrow
– moves the acacia tree.”*

The moral of this old African saying is that even the stiffest of trees can be moved by the lightest of touches – we could also say that even the smallest of gifts - given with warmth of heart or generosity can make a huge difference to those in need.

In this light we urge you to become a sponsor for an African Waldorf/Steiner school and make a difference in the world today! Give a child a chance to carry themselves past poverty, by giving a wholesome education for their future.

At the Mbagathi Steiner School in Nairobi, Kenya – there is a strong need for new sponsors to pay for children's education. The school is growing with 340 students from kindergarten to Class 9. Most of the children come from families where poverty affects many aspects of their lives, many are orphans. Food, clothing and school fees are daily struggles – fear of the future in poverty, and no real hope for change, is a major hindrance. Families live with AIDS, alcohol and drug abuse. A lack of infrastructure - such as, a fresh water supply, electricity and sanitation create unacceptable living conditions for the families but particularly for the children.

The Mbagathi School offers these children a supporting, creative and an academically strong education which can have a huge impact on individual destinies and life opportunities.

The school is located in a wonderful

natural environment in Masai country, the school has its own farm with cows and a large vegetable garden. All children get two healthy meals a day that ensures their proper nutrition. The children grow in a caring community and are content, enthusiastic and full of life. The school has a large dormitory with 117 children of all ages accommodated and this offers a safe and homely area for the children.

As a sponsor for the Mbagathi School you pay for school fees and food, this makes it possible for these children to receive an education. For children in boarding it is an extra cost. The need is great, and your help is urgently needed – **decide to become a sponsor today.** It is an absolute guarantee that 100% of your sponsor money goes directly to the school and that you can stop your sponsorship at any time, if you wish.

We offer two ways to sponsor:

A General sponsorship

– Our guideline is KSh 3,500 (Euro 33) per month throughout the year. A lesser amount is also more than welcome and can easily be arranged as desired. As a general sponsor you will be updated on our schools development through newsletters. General sponsorship is easier to facilitate.

B Individual child sponsorship

– KSh 3,500 (Euro 33) per month throughout the year is the minimum amount for an individual child sponsor, this covers half the school fees and requires two sponsors per child. As an individual child sponsor you receive the child's story, a photo and a yearly school report. You can also contact your sponsor child through letter exchange.
